

BATMAN™ TRIVIA

Instructions For 2 to 4 Players or Team Play

OBJECT:

Be the first Batman to capture two villains and two location cards.

PLAY PIECES:

4 Pawns
12 Villain Cards
10 Location Cards
25 Batman Cards
1 - 6 sided die
1 Game Board
200 Trivia questions with 5 levels of difficulty.

GAME PLAY:

Shuffle and place the Villain cards face up in the Villain space on the board.
Do the same with the Location cards and place them on the Location space.
Shuffle Batman cards and place face down on the Batman space.
Shuffle the Batman Trivia deck.

Players select a colored pawn and place it on the Batcave start space.

Each player chooses a trivia question level at which s/he feels comfortable and is challenging to answer. If the player finds out their chosen level is too difficult or too easy during play, switch levels on the next turn.

Level 1- Easiest questions

Level 2

Level 3

Level 4

Level 5 - Most difficult questions

Youngest player goes first and then play continues clockwise. To move around the board the player rolls the die and moves the amount shown on the die. Once a player proceeds to move their pawn forward, they may not back up; however, they may move in any direction at any of the cross roads.

A Player may use an appropriate Batman card to move their pawn instead of rolling the die. Once any Batman card is used, place it in a discard pile.

If a player lands on a space occupied by another player, the player who landed on the space sends the player who occupied the space to the Batcave.

SPACES TO LAND ON:

A Batman space:

The Batman cards help players defeat the villains, move pawns on the board or they may help the villains defeat Batman. When using Batman cards in battle, you may use as many weapons and allies as you have in your hand to help you win the battle.

When a player lands on a Batman space, that player answers a trivia question asked by player to the right. If answered correctly, that player picks up a Batman card and secretly reads it and places the card face down in front of themselves until needed. If the trivia question is answered incorrectly, it's the next player's turn.

Anytime there are no more cards in the Batman deck, shuffle the discard pile to replace the pile. If there are no discard cards to reshuffle, draw a Batman card from any other player.
